Invitation

Distinguished Colleagues, it is our immense pleasure to invite you to the two-days Global Multidisciplinary Research and Artificial Intelligence: Advancing Innovation and Sustainable Development, being organized by the Internal Quality Assurance Cell of Singhania University, Pacheri Bari, Jhunjhunu on 4th and 5th December, 2026. It is an opportunity for the budding research scholars and teaching faculty to present their Research Paper in the multidisciplinary field. Best papers will be awarded, Abstracts will be published and Participation Certificate will be presented.

About The Conference

The conference is a premier international platform bringing together academicians, researchers, industry experts, innovators, policymakers and students to deliberate on the transformative role of Artificial Intelligence in building a sustainable, inclusive and innovative future. The conference aims to bridge the gap between cutting-edge AI research and real-world multidisciplinary applications — from healthcare and agriculture to education, business, environment and governance.

Singhania University

Singhania University is a prestigious institution nestled in the heart of Rajasthan, India. Established with a vision to redefine education and foster holistic development, it stands as a symbol of academic excellence, innovation, and inclusivity. The University was established by Late Shri. D.C. Singhania, who was inspired by his mother Smt. Narmada Devi's words of "giving it back to the society for their development." The University offers world-class infrastructure, highly qualified and dedicated faculties and excellent environment for academic and intellectual growth.

Conference Theme

"Global Multidisciplinary Research and Artificial Intelligence: Advancing Innovation and Sustainable Development"

Artificial Intelligence is no longer just a technology — it is a driving force for sustainable development, social inclusion and global innovation. It intends to explore how responsible and human-centric AI can solve real-world challenges and create opportunities for all. The participants are expected to enlighten the impact of multidisciplinary research and innovation in their focus area through their research papers and presentation.
